About us

Geneva Macro Labs is the Do-Tank in the Lac Lemman region that co-creates innovative business and policy solutions to achieve the United Nations Sustainable Development Goals (SDGs).

We focus on solutions that help address our most pressing challenges, e.g. related to technology, climate change, health or political stability.

We leverage the collective intelligence of our community around Lake Geneva, partnering with the public and private sector, as well as civil society including academia.

“The Geneva Macro Labs is an intellectual catalyst for best practices. We host conversations to develop recommendations and inform guidelines for sustainable development.”

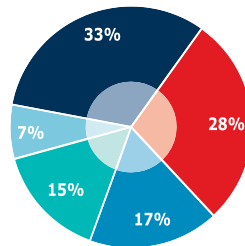

Engage with leading minds

Our conferences, social events, forums and White Papers target a unique and growing audience: Thought leaders and influencers from the public and private sector as well as from civil society.

Network with influential decision-makers in the Lake Geneva area and meet an engaged audience of resourceful people who attend our events:

- Policy Makers, Diplomats (IOGs, IGOs & ministries)
- Senior Executives, Impact Investment/Finance
- Other Industry sectors
- Academia
- Other
